About Me

Result-driven Software Engineer with expertise in developing scalable applications. Skilled in full-stack development problem-solving and collaborating within cross-functional teams. Strong background in front-end and modern development frameworks, staying current with industry best practices.

Education

Bahar Institute of Higher Education

Bachelor of Engineering, Major in Computer Science

Mashhad, Iran

Sep 2018 - Sep 2022

GPA: 3.7/4.0

Relevant Coursework: Software Engineering, Operating Systems, Algorithms, Advanced Programming, Logic Circuits, Mathematics, Discrete Mathematics, Statistics, Data Structure, Electric & Electronic Circuits, Computer Architecture, Theory of Languages & Machines, Algebra, Computer Networks, Principles of Database & Compiler Design, Microprocessor & Assembly Language, UI Design, Artificial Intelligence, Neural Networks, Web Programming, Information Security, Mobile Device Programming, IOT.

Work Experience

Pejvak Aria – Kaman Company

Front End Developer

Mashhad, Iran

May 2025 - Current

- Developing Websites that are connected to BPMS for handling data flow effectively for business and cooperating proposes

Charter 118

Front End Developer

Mashhad, Iran

Dec 2023 - Dec 2024

- Developed and maintained a dynamic, responsive web platform for flight, hotel, and tour reservations using React.js, enhancing user experience and engagement.
- Collaborated with designers and backend developers to deliver seamless, integrated web applications, incorporating RESTful APIs for dynamic data fetching and display.
- Troubleshoot and resolved UI/UX issues to optimize the reservation flow, resulting in improved customer satisfaction and smoother booking processes.

Freelance

Full Stack Developer

Mashhad, Iran

2020 - 2023

- Developed full-stack web applications using React, Redux, Node.js, and Laravel, delivering responsive and scalable solutions tailored to client needs.
- Designed and implemented backend APIs with Node.js and Laravel, managing data storage and retrieval using both MongoDB and MySQL databases, while creating modern UI designs with Tailwind
- Collaborated closely with clients throughout the project lifecycle, ensuring timely delivery and high-quality code through testing and debugging.

Projects

1. <https://charter118.ir>

Technologies used : React, Tailwind, Laravel, PHP, MySQL)

2. <https://hamidsafdari.onrender.com> (My Portfolio)

Technologies used : Html, Css, Java Script

3. <https://shopify-five-blond.vercel.app>

Technologies used : React, Redux, Tailwind, Node js, Mongo DB

- Developed a responsive e-commerce website for women's fashion and accessories using React, Redux, and Tailwind CSS, ensuring a seamless user experience across devices.
- Built a robust backend with Node.js and MongoDB to handle product management, user authentication, and secure order processing.
- Implemented dynamic product categorization and filtering features for Dress Collection, Jewellery, and Cosmetics to enhance user navigation and drive sales.

4. <https://hs7-jobify.onrender.com>

Technologies used : React, Node js, Mongo DB

- Designed and implemented a full-stack job portal using React for the front-end and Node.js with MongoDB for the backend, enabling users to search, apply, and manage job listings efficiently.
- Developed user authentication and profile management features to allow job seekers and employers to create and update profiles securely.
- Integrated advanced search and filtering functionality to match candidates with relevant job opportunities, improving user engagement and satisfaction.

5. <https://hs7-realestate.iran.liara.run>

Technologies used : Html, Css, Jquery, Laravel, MySql

- Developed a feature-rich real estate platform using Laravel, MySQL, HTML, CSS, and jQuery, implementing multi-role access control for super admin, admin, agents, and customers.
- Enabled key customer functionalities including appointment booking, wishlist management, property comparison, and feedback submission to enhance user engagement and satisfaction.
- Integrated a real-time live chat system facilitating direct communication between customers and agents, improving support and conversion rates.

6. <https://pixelbazi.vercel.app>

Technologies used : Html, Css, Java Script

- Built a sleek, responsive portfolio website using HTML, CSS, and JavaScript to showcase video editing work samples effectively.
- Implemented interactive features such as video galleries and smooth navigation to enhance user experience and engagement.
- Optimized site performance and ensured cross-browser compatibility for seamless viewing across devices.

Skills & Interests

Technical Skills: JavaScript, Jquery, React, Redux, Tailwind, Node js, Express js, PHP, Laravel, Git, Mongo DB, MySql, Adobe Premier, Adobe After Effects

Personal Skills: Initiative and Problem-solving Abilities, Continuous Improvement, Team Working Algorithmic approach, Technical presentation

Research Interests: Machine learning, Deep learning, Machine vision, Web Development, Network and Communication Security, Internet of Things, Cloud Computing, Data Mining

Languages

Persian (Native)

English (IELTS 7.5)
